Anti-Fraud, Bribery and Corruption Strategy

To this end, it is committed to an effective anti-fraud, bribery and corruption strategy designed to:

The key objectives of this Strategy are to minimise losses through fraud, bribery and corruption, and to embed further the management of fraud risk within the culture of the organisation.

This Strategy is based on a series of comprehensive and inter-related procedures, designed to prevent, detect and deter fraud and to take effective action against any attempted or actual fraudulent act affecting the Authority:

- Code of Conduct for Employees
- Members Code of Conduct
- Registration and declaration of disclosable pecuniary interests
- Contract Standing Orders
- Financial Regulations

- Core Code of Ethics
- Workplace Charter

What is Fraud, Bribery and Corruption?

Fraud is a crime and involves a deception, which is deliberate and intended to provide a direct or indirect personal gain, for example false expenses, exaggerated pay claims, altering accounting records, bogus invoices, forged cheques, fixing tender results, contract irregularities etc.

Bribery is an inducement or reward offered, promised or provided to gain personal, commercial or regulatory advantage.

Corruption is the deliberate misuse of someone's position for direct or indirect personal gain, such as offering, giving, requesting or accepting a bribe or reward, which influences a person's actions or someone else's.

Theft is where a person steals cash or other property belonging to someone else with no intention of returning it.

Scope

It is expected that all officers (permanent and temporary) and Members of the Authority will lead by example, and ensure adherence to legal requirements, rules, procedures and practices.

The Authority also expects that the individuals and organisations that it comes into contact with (i.e. suppliers, contractors, service providers and consultants) will act towards the Authority with integrity and without thought or actions involving fraud, bribery or corruption.

Authority

The responsibility for an anti-fraud, bribery and corruption culture is the joint duty of those involved in giving political direction, determining policy and management. The Standards, Audit and Performance Committee is key in recommending that sufficient authority is given to anti-fraud, bribery and corruption activity. The Authority's management teams are responsible for ensuring a strong anti-fraud culture within their areas, and that staff accept their responsibility for preventing and detecting fraud, bribery and corruption.

In order for the Authority to deal effectively with suspected incidents of fraud, those responsible for investigating matters must be fully supported by all officers and Members.

Culture

The Authority encourages a culture of honesty and opposition to fraud, bribery and corruption. Members and officers at all levels are expected to lead by example in ensuring adherence to established rules and procedures and to ensure that all procedures and practices are legally sound and honest.

The Authority's employees are an important element in its stance on fraud, bribery and corruption, and they are positively encouraged to raise any concerns that they may have on these issues, where they are associated with the Authority's activity.

The Authority's Brigade Order, "Reporting of Illegality and Malpractice (Whistleblowing)", gives details about the support and safeguards that are available to those, who do raise concerns.

Members of the public can also report concerns through the Authority's complaints procedure, external audit or the Local Government Ombudsman, or, where the conduct of Members is concerned, through the Fire Authority's Monitoring Officer.

The Authority participates in the National Fraud Initiative, the Cabinet Office's bi-annual data matching exercise, which seeks to detect fraudulent payments from the public purse. In addition, the Authority proactively incorporates anti-fraud work into its Internal Audit plans.

Prevention

Staff

A key preventative measure in the fight against fraud, bribery and corruption is to take effective steps at the recruitment stage to establish, as far as possible, the previous record of potential staff, in terms of their propriety and integrity. In this regard, temporary and casual staff are treated in the same manner as permanent staff.

Once officers are recruited in accordance with Human Resources guidelines, they must adhere to the Authority's procedures, practices and policies. Officers, who are members of professional bodies, must follow that body's Code of Conduct. Officers may also voluntarily register membership of other bodies. The Authority's Brigade Order on "Gifts and Hospitality" outlines the procedure to be followed by officers, if they are offered gifts or hospitality from a supplier or other stakeholder.

Members

Members are subject to the Authority's Code of Conduct. Any allegations of breach of the Code are dealt with by the Fire Authority's Monitoring Officer and may, in certain instances, be referred on to its Standards, Audit and Performance Committee. Members are also required to declare their interests in accordance with the law and with the provisions of the Code of Conduct.

A register of interests of Members is maintained by the Fire Authority's Monitoring Officer and is available for inspection by the public at Service Headquarters.

The register is also accessible on the Service's website at the following link:

<http://www.shropshirefire.gov.uk/managing-service/fra-members>

The Fire Authority also has in place a detailed Protocol on Gifts and Hospitality for Members and staff.

The agenda for every meeting of the Authority includes an item on disclosable pecuniary interests, at which point Members must declare if they have an interest in any business to be considered at that meeting in accordance with statutory provisions. Having declared a disclosable pecuniary interest in an item, a Member must leave the meeting room, prior to commencement of the debate on that item.

Members are also required annually to declare any related party transactions.

Systems and Procedures

Financial regulations and standing orders relating to contracts and for the regulation of business are in place to ensure that Members and officers act in accordance with best practice, when dealing with the Authority's affairs. The Authority has a statutory duty under section 151 of the Local Government Act 1972 to make arrangements for the proper administration of its financial affairs, and ensure that one of its officers has responsibility for the administration of these affairs. The Authority's designated Chief Finance Officer is the Treasurer. In the absence of the Treasurer the Head of Finance acts as the deputy section 151 officer.

The Authority has developed systems and procedures, which incorporate efficient and effective internal controls and which include adequate segregation of duties. The Treasurer is responsible for the operation and documentation of such systems. Their existence and appropriateness is independently reviewed and reported upon by Internal Audit Services.

Members and officers should avoid any situations where there is potential for a conflict of interest.

Reporting of Financial Malpractice

The Authority is committed to ensuring the prevention and detection of fraud, bribery and corruption, and will investigate all potential occurrences in a prompt and timely manner.

In the event that an employee is concerned about suspected unlawful conduct, they should speak in the first instance to their line manager, or, if this is not appropriate, to a senior manager.

Senior management are responsible for following up any allegation of fraud, bribery or corruption received, and will deal with it urgently, referring it to the Treasurer, or, if this is not appropriate, to Internal Audit Services. This person must also refer the matter to the Head of Human Resources and Administration.

The Treasurer has statutory duties in relation to financial administration and stewardship on behalf of the Authority.

Section 114 of the Local Government Finance Act 1988 requires the Treasurer to report to the Authority, if one of its officers:

- has made, or is about to make, a decision, which involves incurring unlawful expenditure
- has taken, or is about to take, an unlawful action, which has resulted or would result in a loss or deficiency to the Authority
- is about to make an unlawful entry in the Authority's accounts

Outcomes

There are a number of possible outcomes to a fraud investigation.

- Criminal prosecution
- Disciplinary action
- Recovery through civil or criminal proceedings
- Identification of weaknesses in systems of controls, which require improvement

Full details of outcomes are set out within the Fraud Response Plan below.

Conclusion

This Strategy demonstrates that Shropshire and Wrekin Fire and Rescue Authority has systems and procedures in place to assist in the fight against fraud, bribery and corruption. The Strategy will be brought to the attention of all employees and Members, and will be reviewed at least annually by the Standards, Audit and Performance Committee, to ensure that its contents remain up-to-date.

This policy will be made available in other formats and languages on request.

When implementing this policy, the Service will ensure that reasonable adjustments are considered during the investigation process.

Fraud Response Plan

The Fire Authority has a zero tolerance approach to fraud, bribery and corruption, whether it is attempted from inside or outside of the organisation.

This Response Plan is part of the Authority's Anti-Fraud, Bribery and Corruption Strategy, and gives advice and information to employees and Members about what to look for, and how to act, if fraud or corruption is suspected.

Fraud might happen in the following areas:

Invoices for goods or services

- Claiming for services not performed or goods not received
- Claiming for a higher level of service from that performed or a higher specification of goods than that received
- Claiming for a service or goods provided to an employee on a personal basis

Travel and expense claims

- False journey claimed / same journey claimed twice
- Mileage inflated
- Excessive or inappropriate expenses claimed
- Two employees claiming for a journey taken together
- Altering documentation to disguise theft of cash

Procurement Cards

- Use of a card for payment of non Fire Authority expenditure

Payroll

- 'Ghost' employees introduced onto the payroll system, the salary being paid to the perpetrator
- Hours worked overstated – misuse of flexible working or overtime systems
- Changing employee pay rates or hours without authorisation

Ordering

- Goods ordered for personal use or from a specific supplier in return for some form of benefit
- Goods ordered from own, relatives' or friends' businesses
- Accepting a lower number of items than ordered, but certifying an invoice for a higher number
- Creating / certifying false invoices, for which no order has been raised

Stocks and assets

- Using a computer, fax or telephone for running a private business or for other private purposes
- Using a franking machine for personal mail

Claims for damages

- Personal injury claims falsely alleged as work related or wrongly inflated
- Claims for damage to personal effects falsely alleged as work related or wrongly inflated
- Sick pay / loss of earnings / claims falsely alleged as work related or wrongly inflated.

The following controls should be in place to prevent and detect fraud:

- Procedures should be documented and staff trained in their use.
- Managers should ensure compliance with those procedures.
- Duties should be segregated between staff, to avoid a single employee being solely responsible for the initiation to the completion of a task.
- An independent check should be made to verify calculations and documentation of employees, i.e. travel claims should be checked by managers.
- Unused parts of claim forms should be crossed through, to ensure that no additions are made following approval.
- Cash holdings should be minimised, and cash and cheques banked regularly.
- Budget statements and any associated trends should be reviewed.

If you suspect fraud, you should speak in the first instance to your line manager, or, if this is not appropriate, to a senior manager.

Senior management are then responsible for following up any allegation, and will be expected to deal with it urgently, referring to the Treasurer, or if this is not appropriate, to Internal Audit Services. This person must also refer the matter to the Head of Human Resources and Administration.

Procedures are in place within Internal Audit Services to investigate any allegations presented to them. The Treasurer, together with Internal Audit Services, will:

- Undertake an independent investigation
- Deal promptly with the matter
- Record all evidence received
- Ensure that evidence is sound and adequately supported
- Ensure security of all evidence collected
- Contact other agencies where necessary, e.g. the Police
- Implement the Authority's disciplinary procedures with the Head of Human Resources and Administration, where appropriate.

There are a number of possible outcomes to a fraud investigation.

Criminal prosecution

The Treasurer, in consultation with the appropriate manager and Internal Audit Services, will authorise the referral to the Police for investigation.

Disciplinary action

At the end of the investigation, Internal Audit Services will produce an investigation report. If this involves an employee and fraud is proven, the likely outcome will be dismissal. If fraud is not proven, there may still be matters, which need to be considered under the Fire Authority's disciplinary procedures.

Recovery through civil or criminal proceedings

The Fire Authority will seek to recover all losses, subject to legal advice and where it is cost effective to do so. It will recover any loss caused by an employee through salary, pension or insurance.

Identification of weaknesses in systems of controls, which require improvement

An action plan will be produced to address any system or management weaknesses and to reduce the risk of fraud and error in the future.
