3 Performance Review

A summary of performance for the period April 2013 to March 2014 is provided at the attached appendix. As previously reported, this data is unverified and known to contain a small, but tolerable, margin of error. The data is subject to continuous cleansing with more accurate performance presented to Members as and when available, albeit the overall performance outcome against the measures is unlikely to change fundamentally.

Analysis of available data for the reporting period indicates that year-to-date performance has meant that four of the six measures have achieved the Fire Authority's set targets.
